SUPPLEMENT TO REPORT NO. 25X1

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE
OF THE UNITED STATES WITHIN THE MEANING OF TITLE 18, SECTIONS 793
AND 794, OF THE U. S. CODE, AS AMENDED. ITS TRANSMISSION OR REVEL-
ATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON

THIS IS UNCLASSIFIED INFORMATION

The 1952 building plans for the steel refining plant in Dochlen (N 52/V 18) had not been changed as of January 1952. However, it is not definite that these plans will be achieved. Because of their heavy work load, Zentraler Konstruktionsbureau (ZKB) (Central Technical Designing Office) of the Metallurgical Industry cannot supply the required blueprints on schedule. For the same reason, ABUS Schwermaschinenbau Wildau WEB (N 53/V 02) cannot deliver the rolling mill installations. Efforts are being made to obtain the technical designs from Czechoslovakia and to have the Krupp-Gruosn plant in Magdeburg (M 53/V 60) carry out the building projects. *

* Comment. Under the Five-Year Plan the proposed steel refining plant in Dornien is scheduled to eliminate the shortage of refined steels. The plant is scheduled to produce 44,000 tons of refined steel in 1952, 75,000 tons in 1953, 80,000 tons in 1954, 90,000 tons in 1955, and 100,000 tons in 1956.
